

Dear Sirs,

I am requesting a waiver to extend my filing deadline for two 471 applications with the Schools and Libraries Division. My Reasoning for requesting the waiver:

1. I have 3 entities that have to have NSLP and enrollment information manually updated each year. The others are uploaded by the State Department of Education to SLD.
2. I missed the deadline to modify these entities and the entity modification window has been locked.
3. I can not modify the NSLP information for these three entities.
4. Because these entities have no NSLP info, my district discount percentage has been calculated to 80%.
5. Because of the drawdown of Voice discounts, BENs with an 80% discount will not receive any discounts on voice applications.
6. Because I have no discount for voice, I can not finish my voip and cellular applications. I am given an error and can continue no further.
7. If I was granted a waiver and the 471 deadline was extended for these two applications - 181040838 and 181040881, then I could enter my three missing enrollments and NSLP numbers.
8. This would increase my district percentage calculation to 90% resulting in my district receiving a 10% discount in VOIP and Cell service.
9. A 10% discount would result in a little over \$14,000 in savings for us.
10. \$14,000 would make a great impact in our small rural school district.

Thank you for considering my request for a waiver. I look forward to hearing from you.
